

No more silos. Premier ties your channels together so you can publish with one click to email, your intranet, Microsoft Teams and more.

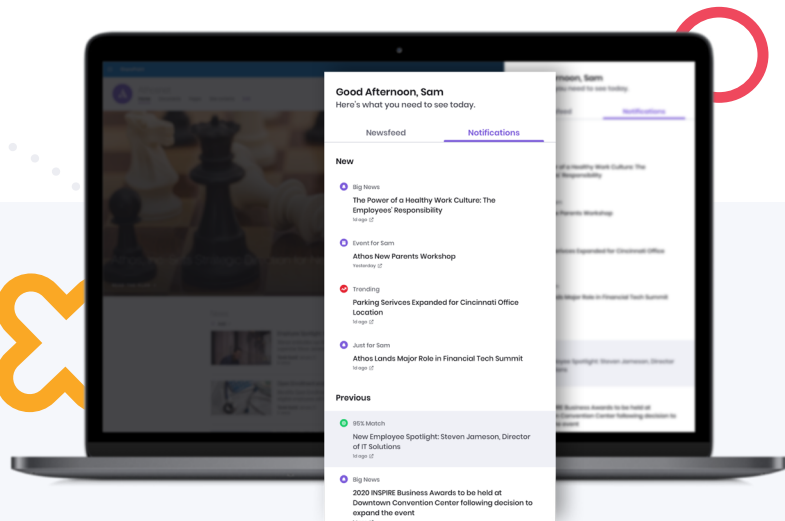

## Content Hub

### ✔ Content Control

Set the priority, audience(s), shelf life for each piece of content.

### ✔ Anything Digital

Bring in content from SharePoint, industry news, social, etc. for a unified view of everything happening across your organization.

### ✔ One Click

Once you click publish, you're done. Broadcast automatically delivers personalized experiences to each employee in their preferred channel.

## Cross-Channel Personalization

### ✔ Always Learning

Broadcast makes each channel intelligent using A.I. to learn about each employee's interests and preferences.

### ✔ Tied Together

Broadcast monitors IF and WHERE content has been consumed by an employee. No more duplicate content across channels.
